CHIEF EXECUTIVE OFFICER

About CSL

[Center for Strategic Litigation \(CSL\)](#) is East Africa's premier think-and-do tank on the rule of law and democracy that seeks to advance the vision of a just and tolerant, vibrant and inclusive democracy grounded in respect for the rule of Law and justice for all. Its programs are tailored towards building knowledge and agency on the rule of law, developing the current and future generation of social justice activists and developing positive jurisprudence in the region in protection of the rights of the most vulnerable as well as the environment.

Our current strategy focuses on strengthening democratic resilience in Africa, promoting accountability for public resources, building healthy information ecosystems and contributing to climate justice for affected communities in East Africa. We pursue these objectives while cognizant of the gender and other cross cutting dimensions affecting them. We also reckon that achieving democratic resilience is possible with sufficient attention towards accountable and sustainable institutions that deliver democracy.

Since its founding in 2019, CSL has enjoyed the leadership of a founding board of some of the region's most committed advocates for the rule of law and social justice. During this period, the implementation of the organization's strategy and vision has been led by its founding Chief Executive Officer who will be stepping down at the end of 2025.
